

Aspect	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Listening	Responding to music through movement, altering movement to reflect the tempo, dynamics or pitch of the music.	Recognising and understanding the difference between pulse and rhythm.	Recognising timbre changes in music they listen to. Recognising structural features in music they *listen to.	Discussing the stylistic features of different genres, styles and traditions of music using musical vocabulary (Indian, classical, Chinese, Battle Songs, Ballads, Jazz).	Recognising the use and development of motifs in music.	Recognising and confidently discussing the stylistic features of different genres, styles and traditions of music using musical vocabulary. (South African, West African, Musical, Theatre, Blues, Dance Remix.).	Discussing musical eras in context, identifying how they have influenced each other, and discussing the impact of different composers on the development of musical styles.
	Exploring lyrics by suggesting appropriate actions.	*Understanding that different types of sounds are called timbres.	Listening to and recognising instrumentation.	Understanding that music from different parts of the world has different features.	*Identifying gradual dynamic and tempo changes within a piece of music.	*Representing the features of a piece of music using graphic notation, and colours, justifying their choices with reference to musical vocabulary.	Recognising and confidently discussing the stylistic features of music and relating it to other aspects of the Arts (Pop art, Film music).
	Exploring the story behind the lyrics or music.	*Recognising basic tempo, dynamic and pitch changes (faster/slower, louder/quieter and higher/lower).	*Beginning to use musical vocabulary to describe music.	*Recognising and explaining the changes within a piece of music using musical vocabulary.	Recognising and discussing the stylistic features of different genres, styles and traditions of music using musical vocabulary (Samba, Rock and Roll).	*Comparing, discussing and evaluating music using detailed musical vocabulary.	*Representing changes in pitch, dynamics and texture using graphic notation, justifying their choices with reference to musical vocabulary.
	Listening to and following a beat using body percussion and instruments.	Describing the character, mood, or 'story' of music they listen to, both verbally and through movement.	Identifying melodies that move in steps. Listening to and repeating a short, simple melody by ear.	*Describing the timbre, dynamic, and textural details of a piece of music, both verbally, and through movement.	Identifying common features between different genres, styles and traditions of music.	*Developing confidence in using detailed musical vocabulary (related to the inter-related dimensions of music) to discuss and evaluate their own and others' work.	Identifying the way that features of a song can complement one another to create a coherent overall effect.
	*Considering whether a piece of music has a fast, moderate or slow tempo.	Describing the differences between two pieces of music. Expressing a basic opinion about music (like/dislike).	Suggesting improvements to their own and others' work	Beginning to show an awareness of metre.	*Recognising, naming and explaining the effect of the interrelated dimensions of music.		
	Listening to sounds and matching them to the object or instrument.	Listening to and repeating short, simple rhythmic patterns.		*Beginning to use musical vocabulary (related to the inter-related dimensions of music) when	*Identifying scaled dynamics (crescendo/decrescendo) within a piece of music.		
	*Listening to sounds and	Listening and responding to other			*Using musical vocabulary to discuss the purpose of a piece of music.		
					*Using musical vocabulary (related to the inter-related dimensions of music) when		

	<p>identifying high and low pitch.</p> <p>Listening to and repeating a simple rhythm.</p> <p>Listening to and repeating simple lyrics.</p> <p>Understanding that different instruments make different sounds and grouping them accordingly.</p>	<p>performers by playing as part of a group.</p>		<p>discussing improvements to their own and others' work.</p>	<p>discussing improvements to their own and others' work.</p>		<p>Evaluating how the venue, occasion and purpose affects the way a piece of music sounds.</p> <p>*Confidently using detailed musical vocabulary (related to the inter-related dimensions of music) to discuss and evaluate their own and others work.</p>
Composing	<p>Playing untuned percussion 'in time' with a piece of music. Selecting classroom objects to use as instruments.</p> <p>Experimenting with body percussion and vocal sounds to respond to music. Selecting appropriate instruments to represent action and mood.</p> <p>Experimenting with playing</p>	<p>Selecting and creating short sequences of sound with voices or instruments to represent a given idea or character.</p> <p>Combining instrumental and vocal sounds within a given structure. Creating simple melodies using a few notes.</p> <p>*Choosing dynamics, tempo and timbre for a piece of music.</p> <p>Creating a simple graphic score to</p>	<p>Selecting and creating longer sequences of appropriate sounds with voices or instruments to represent a given idea or character.</p> <p>*Successfully combining and layering several instrumental and vocal patterns within a given structure.</p> <p>Creating simple melodies from five or more notes.</p> <p>*Choosing appropriate dynamics,</p>	<p>Composing a piece of music in a given style with voices and instruments (Battle Song, Indian Classical, Jazz, Swing).</p> <p>Combining melodies and rhythms to compose a multi-layered composition in a given style (pentatonic).</p> <p>*Using letter name and rhythmic notation (graphic or staff), and key musical vocabulary to label and record their compositions.</p>	<p>Composing a coherent piece of music in a given style with voices, bodies and instruments. Beginning to improvise musically within a given style.</p> <p>Developing melodies using rhythmic variation, transposition, inversion, and looping.</p> <p>*Creating a piece of music with at least four different layers and a clear structure.</p> <p>*Using letter name, graphic and rhythmic notation and key musical vocabulary to label and record their compositions.</p>	<p>Composing a detailed piece of music from a given stimulus with voices, bodies and instruments (Remix, Colours, Stories, Drama).</p> <p>Improvising coherently within a given style.</p> <p>*Combining rhythmic patterns (ostinato) into a multi-layered composition using all the inter-related dimensions of music to add musical interest.</p>	<p>Improvising coherently and creatively within a given style, incorporating given features.</p> <p>Composing a multi-layered piece of music from a given stimulus with voices, bodies and Instruments.</p> <p>Composing an original song, incorporating lyric writing, melody writing and the composition of accompanying features, within a given structure.</p>

	instruments in different ways	represent a composition. Beginning to make improvements to their work as suggested by the teacher.	tempo and timbre for a piece of music. Using letter name and graphic notation to represent the details of their composition. Beginning to suggest improvements to their own work.	*Suggesting and implementing improvements to their own work, using musical vocabulary.	*Suggesting improvements to others' work, using musical vocabulary.	Using staff notation to record rhythms and melodies. *Selecting, discussing and refining musical choices both alone and with others, using musical vocabulary with confidence. Suggesting and demonstrating improvements to own and others' work	*Developing melodies using rhythmic variation, transposition and changes in dynamics, pitch and texture. Recording own composition using appropriate forms of notation and/or technology and incorporating. *Constructively critique their own and others' work, using musical vocabulary
Performing	Using their voices to join in with well-known songs from memory. Remembering and maintaining their role within a group performance. Moving to music with instruction to perform actions. Participating in performances to a small audience. Stopping and starting playing at the right time.	Using their voices expressively to speak and chant. Singing short songs from memory, maintaining the overall shape of the melody and keeping in time. Maintaining the pulse (play on the beat) using hands, and tuned and untuned instruments. Copying back short rhythmic and melodic phrases on	*Using their voices expressively when singing, including the use of basic dynamics (loud and quiet). Singing short songs from memory, with melodic and rhythmic accuracy. Copying longer rhythmic patterns on untuned percussion instruments, keeping a steady pulse. *Performing expressively using dynamics and timbre	Singing songs in a variety of musical styles with accuracy and control, demonstrating developing vocal technique. Singing and playing in time with peers, with some degree of accuracy and awareness of their part in the group performance. *Performing from basic staff notation, incorporating rhythm and pitch and being able to identify these	*Singing longer songs in a variety of musical styles from memory, with accuracy, control, fluency and a developing sense of expression including control of subtle dynamic changes. Singing and playing in time with peers with accuracy and awareness of their part in the group performance. Playing melody parts on tuned instruments with accuracy and control and developing instrumental technique.	Singing songs in two or more parts, in a variety of musical styles from memory, with accuracy, fluency, control and expression. *Working as a group to perform a piece of music, adjusting dynamics and pitch according to a graphic score, keeping in time with others and communicating with the group. Performing with accuracy and fluency	Singing songs in two or more secure parts from memory, with accuracy, fluency, control and expression. *Working as a group to perform a piece of music, adjusting the interrelated dimensions of music as required, keeping in time with others and communicating with the group. Performing a solo or taking a leadership role within a performance.

		<p>percussion instruments.</p> <p>*Responding to simple musical instructions such as tempo and dynamic changes as part of a class performance.</p> <p>Performing from graphic notation</p>	<p>to alter sounds as appropriate.</p> <p>Singing back short melodic patterns by ear and playing short melodic patterns from letter notation.</p>	<p>symbols using musical terminology.</p>	<p>Playing syncopated rhythms with accuracy, control and fluency.</p>	<p>from graphic and simple staff notation.</p> <p>Playing a simple chord progression with accuracy and fluency.</p>	<p>Performing with accuracy and fluency from graphic and staff notation and from their own notation.</p> <p>Performing by following a conductor's cues and directions.</p>
History of music (KS2 only)	N/A	N/A	N/A	<p>Understanding that music from different times has different features. (Also part of the Listening strand)</p>	<p>*Recognising and discussing the stylistic features of different genres, styles and traditions of music using musical vocabulary. (Also part of the Listening strand)</p>	<p>*Confidently discussing the stylistic features of different genres, styles and traditions of music and explaining how these have developed over time. (Also part of the Listening strand)</p>	<p>*Discussing musical eras in context, identifying how they have influenced each other, and discussing the impact of different composers on the development of musical styles. (Also part of the Listening strand)</p>
The Inter-related dimensions of music							
Pitch	<p>To understand that what 'high' and 'low' notes are.</p>	<p>To understand that pitch means how high or low a note sounds.</p> <p>To understand that 'tuned' instruments play more than one pitch of notes.</p>	<p>To know that some tuned instruments have a lower range of pitches and some have a higher range of pitches.</p> <p>To understand that a melody is made up from high and low pitched notes played one after the other, making a tune.</p>	<p>To know that the group of pitches in a song is called its 'key' and that a key decides whether a song sounds happy or sad.</p> <p>To know that some traditional music around the world is based on five-notes called a 'pentatonic' scale.</p>	<p>To know that a bass line is the lowest pitch line of notes in a piece of music, and a walking bassline (where patterns of notes go up then down again) is common in rock and roll.</p> <p>To know that a glissando in music means a sliding effect played on instruments or made by your voice.</p>	<p>To understand that a minor key (pitch) can be used to make music sound sad.</p> <p>To understand that major chords create a bright, happy sound.</p> <p>To know that a 'bent note' is a note that varies in its pitch, eg the pitch may slide up or down.</p>	<p>To know that the Solfa syllables represent the pitches in an octave. To understand that 'major' key signatures use note pitches that sound cheerful and upbeat.</p> <p>To understand that 'minor' key signatures use note pitches that can suggest sadness and tension.</p>

				To understand that a pentatonic melody uses only the five notes C D E G A.	To know that 'transposing' a melody means changing its key, making it higher or lower pitched.	To understand that varying effects can be created using only your voice, for example by changing the pitch, dynamic or tempo of the sounds made	To know that a melody can be adapted by changing its pitch.
Duration	To recognise that different sounds can be long or short.	To know that rhythm means a pattern of long and short notes.	To know that 'duration' means how long a note, phrase or whole piece of music lasts. To know that the long and short sounds of a spoken phrase can be represented by a rhythm	To know that different notes have different durations, and that crotchets are worth one whole beat. To know that written music tells you how long to play a note for	To know that combining different instruments playing different rhythms creates layers of sound called 'texture'. To know that playing 'in time' requires playing the notes for the correct duration as well as at the correct speed. To know that a motif in music can be a repeated rhythm.	To know that 'poly-rhythms' means many different rhythms played at once. To know that the duration of a note or phrase in music can be shown using a repeated symbol or the size of a symbol on a graphic score.	To understand that all types of music notation show note duration. To understand that representing beats of silence or 'rests' in written music is important as it helps us play rhythms correctly. To know that a quaver is worth half a beat, a crotchet one whole beat and a minim two whole beats.
Dynamics	To understand that instruments can be played loudly or softly.	To know that dynamics means how loud or soft a sound is. To understand that sounds can be adapted to change their mood, eg through dynamics.	To know that dynamics can change the effect a sound has on the audience	To know that the word 'crescendo' means a sound getting gradually louder.	To know that changing the dynamics of a musical phrase or motif can change the texture of a piece of music.	To understand that varying effects can be created using only your voice, for example by changing the pitch, dynamic or tempo of the sounds made.	To know that a melody can be adapted by changing its dynamics
Tempo	To recognise music that is 'fast' or 'slow'.	To know that the 'pulse' is the steady beat that goes through music. To	To understand that the tempo of a musical phrase can be	N/A	To know that playing in time means all performers playing together at the same speed.	To understand that a slow tempo can be used to make music sound sad.	To know that a melody can be adapted by changing its dynamics, pitch or tempo.

	To understand that we can match our body movements to the speed (tempo) or pulse (beat) of music.	know that tempo is the speed of the music	<p>changed to achieve a different effect.</p> <p>To understand that the pulse of music can change.</p> <p>To know that my voice, body and instruments can show fast and slow beats.</p>			To understand that varying effects can be created using only your voice, for example by changing the pitch, dynamic or tempo of the sounds made.	
Timbre	<p>To know that different instruments can sound like a particular character.</p> <p>To recognise that voices and instruments can imitate sounds from the world around us (eg. vehicles)</p>	<p>To know that 'timbre' means the quality of a sound; eg that different instruments would sound different playing a note of the same pitch.</p> <p>To know that my voice can create different timbres to help tell a story</p>	<p>To know that musical instruments can be used to create 'real life' sound effects.</p> <p>To understand an instrument can be matched to an animal noise based on its timbre.</p>	To understand that the timbre of instruments played affect the mood and style of a piece of music.	<p>To know that grouping instruments according to their timbre can create contrasting 'textures' in music.</p> <p>To understand that both instruments and voices can create audio effects that describe something you can see.</p>	To understand that human voices have their own individual timbre, and that this can be adapted by using the voice in different ways.	To know that timbre can also be thought of as 'tone colour' and can be described in many ways eg warm or cold, rich or bright.
Texture	To know that music often has more than one instrument being played at a time.	To know that music has layers called 'texture'	To know that a graphic score can show a picture of the layers, or 'texture', of a piece of music	To know that many types of music from around the world consist of more than one layer of sound; for example a 'tala' and 'rag' in traditional Indian music.	<p>To know that combining different instruments and different rhythms when we compose can create layers of sound we call 'texture'.</p> <p>To understand that harmony means playing two notes at the same time, which usually sound good together.</p>	<p>To understand that a chord is the layering of several pitches played at the same time.</p> <p>To know that poly-rhythms means many rhythms played at once.</p>	<p>To understand that texture can be created by adding or removing instruments in a piece and can create the effect of dynamic change.</p> <p>To know that a 'counter-subject' or 'counter-melody' provides contrast to the main melody.</p>

							<p>To know that a counter-melody is different to harmony because it uses a different rhythm as well as complementary notes.</p> <p>To know that a 'polyphonic' texture means lots of individual melodies layered together, like in a canon.</p>
Structure	To recognise the chorus in a familiar song	To know that a piece of music can have more than one section, eg a versed and a chorus.	To understand that structure means the organisation of sounds within music, eg a chorus and verse pattern in a song.	<p>To know that in a ballad, a 'stanza' means a verse.</p> <p>To know that music from different places often has different structural features, eg traditional Chinese music is based on the five-note pentatonic scale.</p>	<p>To know that deciding the structure of music when composing can help us create interesting music with contrasting sections.</p> <p>An ostinato is a musical pattern that is repeated over and over; a vocal ostinato is a pattern created with your voice.</p> <p>To understand that musical motifs (repeating patterns) are used as a building block in many well-known pieces of music</p>	<p>To know that a loop is a repeated rhythm or melody, and is another word for ostinato.</p> <p>To know that 12-bar Blues is a sequence of 12 bars of music, made up of three different chords.</p>	<p>To know that a chord progression is a sequence of chords that repeats throughout a song.</p> <p>To know that a canon is a musical structure or 'form' in which an opening melody is imitated by one or more parts coming in one by one.</p> <p>To know that a 'theme' in music is the main melody and that 'variations' are when this melody has been changed in some way.</p> <p>To know that ground bass is a repeating melody played on a</p>

							bass instrument in Baroque music.
Notation	To know that signals can tell us when to start or stop playing.	To understand that music can be represented by pictures or symbols	To know that 'notation' means writing music down so that someone else can play it I know that a graphic score can show a picture of the structure and / or texture of music	To understand that 'reading' music means using how the written note symbols look and their position to know what notes to play	To know that 'performance directions' are words added to music notation to tell the performers how to play.	To know that simple pictures can be used to represent the structure (organisation) of music. To understand that in written staff notation, notes can go on or between lines, and that the lines show the pitch of the note.	To know that 'graphic notation' means writing music down using your choice of pictures or symbols but 'staff notation' means music written more formally on the special lines called 'staves'. To know that chord progressions are represented in music by Roman numerals.

*Also form part of the 'Inter-related dimensions of music' strand.
